# DEAR PARENT/GUARDIAN,

At Google, we think about what's next. We aim to make the future world a better place by building technology, investing in initiatives, and making the Internet more accessible for everyone.

Now we're now asking kids to imagine what possibilities await in the years to come and to represent that vision through their art. In other words, we're asking that this year's doodles explain "What I see for the future..."

One talented student's winning artwork will appear on the Google homepage. The winner will also receive a $30,000 college scholarship and a $50,000 Google for Education technology award for their school.

Go to google.com/doodle4google for the entry form. Now, let's get doodling!
