

Attention Room 430!

There will be a Puzzling *Show What YOU Know* on **Wednesday, October 19th**. It will be a cumulative assessment of the concepts and skills taught in Unit 1 and 2.

Students will be assessed on their ability to:

- add and subtract multi-digit numbers
- draw polygons and mark right angles
- explain whether a polygon is a parallelogram or not
- interpret a tally chart and find the maximum, range, mode, and median for a set of data
- explain how to find the median
- construct a bar graph
- write equivalent names for numbers (ex: broken calculator problems)
- measure line segments to the nearest half-centimeter
- estimate sums and differences / then solve multi-digit addition and subtraction problems
- describe a strategy for estimating

Remember, a great way to review and study is to use the class website! It has video review lessons, real world examples, and fun games to play and study with! Just go to www.hiawatharoom430.weebly.com/puzzling and get started! Good luck!

STUDYING
TIP of the
month

GET A STUDY BUDDY

It's like they say... two minds are better than one. Studying with a friend can be very helpful and a lot of fun. You can work on problems together and explain things that the other person doesn't know or understand. Just make sure to stay on task!
