

Attention Room 430!

There will be a Puzzling *Show What YOU Know* on **Tuesday, January 26th**. It will be a cumulative assessment of the concepts and skills taught in Units 1, 2, 3, 4, and 5.

Students will be assessed on their ability to:

- estimate the sum of two numbers and write a number model
- solve multi-digit multiplication problems
- add and subtract decimals
- explain how to add and subtract decimals (ex: line up the decimals and place values)
- measure a line segment
- complete "What's My Rule" tables using multiplication
- estimate if the product of two numbers will be in the tens, hundreds, thousands, or more
- write a number model for a number story
- multiply using extended facts

Remember, a great way to review and study is to use the class website! It has video review lessons, real world examples, and fun games to play and use to study! Just go to www.hiawatharoom430.weebly.com/puzzling and get started! Good luck!

STUDYING
TIP of the
month

REWORK EXAMPLE PROBLEMS

One of the best ways to study is to re-do problems that you have already solved. It helps you to memorize patterns and routines in solving different types of puzzle problems. Try reworking homework problems and see if you can still get the right answer.
